Shortcut Option for 45 miles

In Harper's Ferry at mile 19.4, continue straight and walk bike across foot bridge to towpath on the other side of the river. Get yourself up to Harper's Ferry/Sandy Hook Rd. (you may need to head left on the towpath to get to a road access point) and go right (downhill). You'll be at about mile 49. Rest stop in Lovettsville in about 10 miles, or grab something in Harper's Ferry before you go. There are also options in Brunswick.
